

• "The man who moves a mountain begins by carrying away small stones."

Confucius

THE TESLA CENTRISM:

Revolutionizing Science Education at Every Level Worldwide by Samuel Mason, Director of Tesla Science Foundation The Tesla Science Foundation is a 501 (c)(3) nonprofit organization dedicated to promoting the life, legacy and scientific innovations of Nikola Tesla. Having successfully hosted numerous lectures, seminars, forums - to include the annual Energy Independence Conference and Tesla Memorial Conference - our Foundation is the most active Tesla related organization in the United States today. Through our dedicated efforts and generous support from our contributors, the Tesla Science Foundation network of distinguished scientists, engineers, academics, artists, students and other Tesla enthusiasts worldwide continues to grow. Visionary and scientist Nikola Tesla is included in the UNESCO Memory of the World register.

TSF EVENTS...

Teaching Tesla in a variety of settings provides dynamic exposure to high energy physics

TEACHING TESLA FOR ALL AGES

Primary education, secondary education, government/corporate institutions

From infancy to college level to captains of industry, if they can learn, teach them about Nikola Tesla!

THE PHILADELPHIA SCIENCE FESTIVAL

THE TESLA SCIENCE
FOUNDATION, TACONY
ACADEMY AND THE
FRANKLIN INSTITUTE HAVE
HAVE FORMED A
PARTNERSHIP TO CREATE A
GLOBAL PROGRAM FOR
CIVIC MINDED
INNOVATORS EVERYWHERE

In the United States, Tacony Academy Charter School in Philadelphia, Pennsylvania is leading the way in S.T.E.A.M education by providing its students with access to accurate historical accounts of epic human ingenuity, hands-on high energy physics experiments, artistic expression through science/technology and the opportunity to make a difference by building a more sustainable world. Nikola Tesla's story inspires people of all ages and backgrounds.

The Tesla Science Foundation is proud to lead the way towards Tesla's proper accreditation in academia and his total revival in popular science culture.

GROWTH PHASES FOR TSF PROGRAMS

Phase 1: Atmosphere

Phase 2: Environment

Phase 3: Foundation

Create an atmosphere that promotes the life work and legacy of Nikola Tesla by building a strong knowledge base on both resolved and unresolved patents that contributed to the development of human civilization.

Create a environment that promotes the past contributions of Nikola Tesla to the people of all age nationalities creeds and educational backgrounds. Create a solid foundation based on factual information to better prepare students for the world of tomorrow

LABORATÓRIO DE ENERGIA "TESLA"

These pictures show perfectly the Spiral Currents disc-shaped Aerodynes. The establishment of a stable spiral distribution of the current is obtained by an original method, based on the concept of disc-shaped MHD aerodynes introduced by Jean-Pierre PETIT in 1975, in 2 papers released in the "Comptes Rendus de l'Académie des Sciences de Paris"
